

S M E G

Small Domestic Appliances

SMEG, IS AN ACRONYM

A family company since 1948

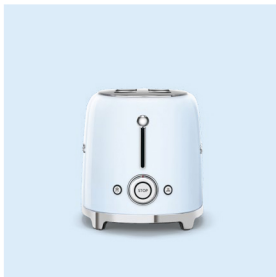

Founded in 1948 by Vittorio Bertazzoni, SMEG is internationally recognized for the production of Italian-designed appliances born from the collaboration with world-famous architects; refined products that combine performance and style, intended for consumers who are attentive to design and its evolutions. Family-owned and operated since 1948, SMEG has grown into a company with many worldwide subsidiaries, and an extensive sales network.

At the base of the SMEG philosophy there are two fundamental principles:

1. Technology with style. The most advanced technologies are hidden behind a distinctive aesthetic emblem of Italian design.
2. Not just products, creations. Products born from the collaboration with internationally renowned architects who combine technology with beauty in the making, designed to last over time.
